

For Your Continuing Professional Development

Arrhythmia Symposium at the Cedars-Sinai Heart Institute – Focus On Sudden Cardiac Arrest

Friday, December 7, 2012
Harvey Morse Auditorium

7.0 AMA PRA Category 1 Credits™
7:15 am to 9:15 pm

Sudden cardiac arrest (SCA) remains a major health problem domestically and globally today. In recent years there have been significant developments in diagnostic as well as therapeutic modalities for management of SCA. The overall goal of this program is to provide clinically relevant, state of the art information to healthcare providers regarding the management of SCA with a particular emphasis on risk stratification techniques. Special care has been taken to provide attendees with the opportunity to learn from and interact with individuals who are experts in the field of SCA. Attendees of the symposium will enhance their understanding of the diagnosis, triage, immediate management and tertiary referral of patients at risk for SCA as well as various heart rhythm abnormalities.

Advances in Nuclear Cardiology & Cardiac CT: 28th Annual Case Review with the Experts

Friday - Sunday, January 18-20, 2013
Harvey Morse Auditorium

25.25 AMA PRA Category 1 Credits™
Friday – 7:45 am to 5:30 pm
Saturday - 8:00 am – 6:00 pm; Sunday - 8:00 am – 4:00 pm

Explore various imaging modalities and cutting-edge technologies at the *Advances in Nuclear Cardiology and Cardiac CT: 28th Annual Case Review with the Experts.* Attendees will participate in an stimulating, three-day course covering the use of nuclear cardiology, cardiac CT, and cardiac MRI across the spectrum of patients routinely seen in a typical practice. The course is widely known for its practical approach to the use of and performance and interpretation nuclear cardiology cardiac CT procedures. In addition to providing lectures regarding the most up to date evidence, and appropriate use criteria and guidelines in each field, the program will provide multiple workshops that allow participants to read numerous cases with an expert faculty. Each workshop will focus on a specific technical or clinical problem with active attendee participation in case interpretations using an audience response system, as well as question and answer sessions.

Symposium on Neurovascular Disease 2013

Saturday, January 26, 2013
Casa Del Mar Hotel

7.5 AMA PRA Category 1 Credits™

8:00 am to 5:05 pm

Neurovascular disease is the number one cause of permanent adult disability in the United States. Exciting new treatments have shown early promise, not only in preventing subsequent strokes, but reversing the effects of acute stroke. It is vital that neurologists, neurosurgeons, internists, family practitioners, and vascular surgeons, as well as allied healthcare professionals stay updated on these developing options to provide the best care for their patients.

This conference provides an interdisciplinary approach using didactic lectures, case presentations, and audience polling and participation to present new neurovascular data and discuss challenging clinical cases.

13th Annual Educational Meeting in Gastroenterology

Friday – Saturday, March 1-2, 2013
Harvey Morse Auditorium

16.5 AMA PRA Category 1 Credits™

Friday – 7:00 am to 6:30 pm

Saturday – 7:00 am to 5:00 pm

This program has been planned to provide attendees information regarding the relevant new developments in gastroenterology. A group of national experts, including several renowned guest faculty, will present these findings and guidelines in a clinical context that will be useful in your gastroenterology practice. Throughout the 12 years of this meeting, the Center for Digestive Disease at Cedars-Sinai Medical Center has not only provided this yearly educational event, but has also contributed significantly to the changes in how gastroenterology is practiced worldwide. This two-day conference is intended for gastroenterologists and all other healthcare professionals who treat patients with gastrointestinal disorders.
