## Advances in Nuclear Cardiology & Cardiac CT: 28<sup>th</sup> Annual Case Review with the Experts

Friday - Sunday, January 18-20, 2013  
Harvey Morse Auditorium

25.25 AMA PRA Category 1 Credits™

Friday – 7:45 am to 5:30 pm  
Saturday – 8:00 am – 6:00 pm; Sunday – 8:00 am – 4:00 pm

Explore various imaging modalities and cutting-edge technologies at the *Advances in Nuclear Cardiology and Cardiac CT: 28<sup>th</sup> Annual Case Review with the Experts.* Attendees will participate in a stimulating, three-day course covering the use of nuclear cardiology, cardiac CT, and cardiac MRI across the spectrum of patients routinely seen in a typical practice. The course is widely known for its practical approach to the use of and performance and interpretation nuclear cardiology cardiac CT procedures. In addition to providing lectures regarding the most up to date evidence, and appropriate use criteria and guidelines in each field, the program will provide multiple workshops that allow participants to read numerous cases with an expert faculty. Each workshop will focus on a specific technical or clinical problem with active attendee participation in case interpretations using an audience response system, as well as question and answer sessions.

## 5<sup>th</sup> Annual Symposium on Neurovascular Disease 2013

Saturday, January 26, 2013  
Casa Del Mar Hotel

7.5 AMA PRA Category 1 Credits™

8:00 am to 5:05 pm

Neurovascular disease is the number one cause of permanent adult disability in the United States. Exciting new treatments have shown early promise, not only in preventing subsequent strokes, but reversing the effects of acute stroke. It is vital that neurologists, neurosurgeons, internists, family practitioners, and vascular surgeons, as well as allied healthcare professionals stay updated on these developing options to provide the best care for their patients.

This conference provides an interdisciplinary approach using didactic lectures, case presentations, and audience polling and participation to present new neurovascular data and discuss challenging clinical cases.

## **Current Concepts and Challenges in the Management of Pain**

Saturday, March 23, 2013

Harvey Morse Auditorium

7.75 AMA PRA Category 1 Credits™

7:30 am to 5:00 pm

The relief of pain is the number one reason for patients to be present in their physicians' offices. Whether acute or chronic, intractable pain affects millions of people worldwide. In order to begin the process of managing pain, doctors must have an understanding of the mechanisms of pain, the pharmacology of analgesic medications, and the time to make a referral for more complex care. This course will provide background and an update to address these issues by highlighting the clinical science of pain medicine and state-of-the-art therapies.
