

For Your Continuing Professional Development

2nd Annual New Therapeutics in Oncology: The Road to Personalized Medicine

Friday-Saturday, November 8-9, 2013

Refer to program website for times

Harvey Morse Auditorium

10.0 AMA PRA Category 1 Credits™

[Register
Now!](#)

This 2nd annual educational activity will provide guidance to front-line clinicians, nurses, nurse practitioners, physician assistants, and pharmacists with the most current information available about new agents in oncology and the translation of the latest research to their patients. New Therapeutics in Oncology: The Road to Personalized Medicine will cover drug and treatment updates with a focus on new agents in GI malignancies, lung cancer, and lymphoma. In addition, renowned faculty will present lectures on new radiotherapy approaches, new drug and surgical treatments of breast cancer, targeting the c-MET pathway, and a discussion of new Phase I studies. On the second day of the conference, a keynote address on personalized treatment of cancer and the context of vulnerability will be featured.

State of the Art Spine Care 2013

Saturday, November 16, 2013

7:30 am to 4:00 pm

Harvey Morse Auditorium

7.0 AMA PRA Category 1 Credits™

[Register
Now!](#)

The State-of-the-Art Spine Care conference will focus on up to the moment information on the management of spine patients for the primary care and first contact providers. The faculty will be comprised of recognized spine specialists who will present lectures focusing on evaluation and conservative treatment of spinal problems, imaging and techniques available for assistance in diagnosis of a spine problem, pain management, current spine techniques and technologies, and management of the pre and post-surgical spine patient. Participants will have several opportunities for discussion and are encouraged to join faculty for discussions and debates regarding all topics.

Endocrinology & Metabolism Update 2013

Monday, December 2, 2013

2:30 pm to 8:30 pm

Harvey Morse Auditorium

5.5 AMA PRA Category 1 Credits™

[Register
Now!](#)

This CME activity will bring together physicians from a wide variety of disciplines including Endocrinology, Obstetrics/Gynecology, and Internal Medicine to provide participants with a state-of-the-art conference on endocrinology and metabolism. This course is designed to summarize and present the latest information in the diagnosis and management of endocrine/metabolic disorders, including pituitary disorders, diabetes mellitus, osteoporosis and androgen related disorders such as polycystic ovary syndrome (PCOS). In addition to state-of-the-art management of various endocrine and metabolic disorders, attendees will gain insight into areas of clinical research and controversial issues in disease management. Formal presentations will be accompanied by question and answer periods with general discussion.

11th Annual Emergency Medicine Symposium – A Practical Update

Friday, December 6, 2013

7:15 am to 5:00 pm

Four Seasons Beverly Hills Hotel

7.0 AMA PRA Category 1 Credits™

[Register
Now!](#)

Emergency medicine physicians require continuous updates of their knowledge and skills for the prevention, diagnosis, and management of acute and urgent aspects of illness and injury. This one day course will provide an overview and update on a broad range of topics that are pertinent to emergency medicine practitioners. Our distinguished Cedars-Sinai faculty will present lectures addressing a variety of topics ranging from the use of extracorporeal membrane oxygenation (ECMO) in cardiac arrest and pre arrest scenarios; advanced ultrasound with emphasis on lumbar puncture; and ocular, vascular, and focused assessment with sonography for trauma (FAST) scan. In addition, Cedars Sinai is a national leader in the care of critically ill patients undergoing heart transplant, and our distinguished faculty will provide the community physicians and nurses' clinical pearls about providing these patients with optimal care. Attendees will have the opportunity to experience "hands-on" ultrasound scanning through the use of model or simulation, and practice some of the techniques presented at this conference.

Additional Upcoming Programs

LIVER TUMORS: NEW TECHNOLOGIES & NEW MANAGEMENTS

February 15-16, 2014

Harvey Morse

Auditorium

EVIDENCE-BASED PSYCHIATRIC CONSULTATION IN MEDICAL AND SURGICAL SETTINGS

February 21, 2014

Harvey Morse

Auditorium

THE JAMES R. KLINENBERG, MD SYMPOSIUM ON RHEUMATIC DISEASES: HOT TOPICS IN RHEUMATOLOGY

February 22, 2014

The Westin Pasadena

14TH ANNUAL EDUCATIONAL MEETING IN GASTROENTEROLOGY

February 28-March 1,
2014

Harvey Morse

Auditorium

CURRENT CONCEPTS AND CHALLENGES IN THE MANAGEMENT OF PAIN

March 15, 2014

Advances in Nuclear Cardiology and Cardiac CT: 29th Annual Case Review with the Experts with 101 Evidence-based Cases

Friday-Sunday, January 24-26, 2014
Refer to program website for times
Harvey Morse Auditorium
25.25 AMA PRA Category 1 Credits™

[Register
Now!](#)

Cardiac imaging is at a crossroads. Technological advances and clinical outcomes evidence have evoked a multimodality approach to use of cardiac imaging, with increasing complexity of image acquisition, interpretation and application. Notwithstanding this established evidence-based foundation that has demonstrated improvements in patient care, cardiac imaging has recently come under scrutiny due to escalating use associated with increased costs. The focus on increased costs of imaging has led to initiatives to reduce unnecessary testing, while encouraging the use of imaging for indications of testing that are considered appropriate.

The Cedars-Sinai Heart Institute is pleased to sponsor, "Advances in Nuclear Cardiology and Cardiac CT: 29th Annual Case Review with the Experts with a 101 Evidence-based Cases", a multidisciplinary medical education program designed to address the need for increasing quality in performing, interpreting, reporting and applying nuclear cardiology and cardiac CT studies. Further, this course will emphasize physician competency and optimal laboratory performance of imaging studies in the areas of coronary artery disease and non-coronary cardiovascular disease. The course focuses on the spectrum of patients routinely seen by the healthcare professional in a typical clinical practice.

6th Annual Symposium on Neurovascular Disease 2014

Saturday, January 25, 2014
7:30 am – 5:00 pm
Casa Del Mar Hotel
7.5 AMA PRA Category 1 Credits™

[Register

Neurovascular disease is the number one cause of permanent adult disability in the United States. Exciting new treatments have shown promise, not only in preventing subsequent strokes, but reversing the effects of acute stroke. The evaluation and management of acute stroke, transient ischemic attack (TIAs), and cerebral aneurysms are in rapid evolution. Likewise, the new Joint Commission designation of Comprehensive Stroke Centers may impact how healthcare is delivered to these patients. It is vital that neurologists, neurosurgeons, internists, family practitioners, and vascular surgeons, as well as allied healthcare professionals stay updated on these developing options and health care systems to provide the best care for their patients.

This conference provides an interdisciplinary approach using didactic lectures, case presentations, and audience polling and participation to present new neurovascular data and discuss challenging clinical cases. Renowned regional and national faculty will present and discuss both traditional and cutting edge treatments and management strategies.

13th Annual Symposium on Current Concepts in Spinal Disorders

Thursday - Saturday, January 30 – February 1, 2014
Refer to program website for times
The Cosmopolitan of Las Vegas
16.0 AMA PRA Category 1 Credits™

[Register
Now!](#)

The 13th Annual Symposium on Current Concepts in Spinal Disorders will focus on current treatment methodology, new and emerging technologies and controversies in spine care management. The faculty will be comprised of internationally recognized experts who will present lectures focused on healthcare reform, innovations in spine surgeries, biologics and stem cells, minimally invasive surgeries, motion preservation, complications and controversies, and deformities and pain management. Participants will have several opportunities for discussion and are encouraged to join faculty for discussions and debates regarding all topics.

21st International Symposium on Pancreatic & Biliary Endoscopy

Friday – Sunday, January 31 – February 2, 2014
Refer to program website for times
Harvey Morse Auditorium
21.25 AMA PRA Category 1 Credits™

[Register
Now!](#)

The Cedars-Sinai 21st International Symposium on Pancreatic and Biliary Endoscopy teaching conference will be held in cooperation with three major endoscopy centers in Los Angeles, New York and Santiago, Chile. Balanced viewpoints, special techniques and practical clinical approaches will be presented throughout the program by renowned international faculty who bring unique knowledge, skills and excitement from North and South America. A total of 11 hours of ERCP procedure demonstrations will be streamed live from Cedars-Sinai procedure rooms so that participants can witness the different skills and equipment used to treat various pancreatic and biliary conditions. This year's special features include:

- Eleven hours of ERCP procedure demonstrations telecast live from Cedars-Sinai Medical Center
- Twenty clinically coherent and carefully chosen didactic topics, including current literature review
- Ample time for questions and discussion throughout the program
- Case conference to apply technical skills to challenging clinical scenarios
- Concurrent GI Fellows' Program
- Bonus Session for GI Fellows and Nurses
