

For Your Continuing Professional Development

5th Annual Symposium on Lysosomal Storage Disorders

Thursday, December 3, 2015
Advanced Health Science Pavilion
Los Angeles, CA

7.0 AMA PRA Category 1 Credits™

[Register Now!](#)

This continuing medical education conference will update members of the multidisciplinary care team on most recent advances in identification, diagnosis, pathophysiology, management and treatment of a wide range of lysosomal storage disorders. The theme of the course is translation of scientific breakthroughs to the bedside. Highlights include advances in molecular diagnosis of lysosomal storage disorders, promise and pitfalls of newborn screening for lysosomal storage disorders, under-recognized clinical features, and updates on various treatment modalities.

13th Annual Emergency Medicine Symposium - A Practical Update

Friday, December 4, 2015
Four Seasons Hotel
Los Angeles, CA

7.75 AMA PRA Category 1 Credits™

[Register Now!](#)

The 13th Annual Emergency Medicine Symposium will be a cutting edge, highly interactive, and comprehensive course on new directions and topics in emergency medicine. Join your colleagues and expert faculty as we explore the field of simulation medicine and the ways to incorporate it into your department. Review and discuss the latest literature in trauma and emergency medicine and understand the implications for your daily practice. Using available tools, critically analyze chest pain “rule ins” and “rule outs” and the risks and benefits of procedural sedation. Other important topics that will be covered include heat injury and the challenges of evaluating the vertiginous patient, which requires a careful neurologic examination, such as HINTS (Head-Impulse-Nystagmus-Test-of-Skew). More and shorter lectures will provide participants with twice as much emergency medicine content in a fast-paced format that will be educational, engaging and entertaining.

Advances in Nuclear Cardiology and Cardiac CT: 31st Annual Case Review with the Experts with 101 Evidence-based Cases

Friday, January 22 – Sunday, January 24, 2016
Harvey Morse Auditorium
Los Angeles, CA

25.0 AMA PRA Category 1 Credits™

[Register Now!](#)

The objectives of the program are designed to meet the current needs of professionals who perform or request nuclear cardiology, cardiac CT or Cardiac MRI studies. Using these studies optimally requires knowledge of best practices for the modalities, regarding performing to reporting the studies, the evidence base regarding their use, the relevant appropriateness of their use in specific clinical settings, and the treatment options that should be recommended based on the results. We are pleased to be able to meet these educational needs through a live three-day symposium entitled, “Advances in Nuclear Cardiology and Cardiac CT: 31st Annual Case Review with the Experts with a 101 Evidence-based Cases”. The course emphasizes the use of these modalities across the spectrum of patients routinely seen by physicians day-to-day in a typical practice, both for the evaluation of individuals with suspected or known coronary disease as well as other non-coronary cardiac disease states.

8th Annual Symposium on Neurovascular Disease 2016

January 23, 2016
Casa Del Mar Hotel
Santa Monica, CA

8.0 AMA PRA Category 1 Credits™

[Register Now!](#)

Neurovascular disease is the number one cause of permanent adult disability in the United States. Exciting new treatments show promise, not only in preventing subsequent strokes, but reversing the effects of acute stroke. In particular, the evaluation and management of acute stroke, Emergent Large Vessel Occlusion (ELVO), and cerebral hemorrhage are rapidly evolving. The symposium will focus on existing and emerging therapies for patients with cerebrovascular disease, including management and prevention of ischemic stroke, the latest in endovascular and surgical aneurysm treatment, and strategies for optimizing acute stroke assessment and care. It is vital that neurologists, neurosurgeons, internists, family practitioners, and vascular surgeons, as well as allied healthcare professionals stay updated on these developing options and systems of care to ensure the delivery of safe and effective cutting edge treatments. Designed to encourage participation and discussion, this one-day conference provides an interdisciplinary approach using didactic lectures, case presentations, and audience polling and participation to present new neurovascular data and discuss challenging clinical cases. Renowned regional and national faculty will present and discuss both traditional and cutting edge treatments and management strategies.

Additional Upcoming Programs

JRK SYMPOSIUM ON RHEUMATIC DISEASES

March 4, 2016
The Westin Pasadena
Pasadena, CA

EDUCATIONAL MEETING IN GASTROENTEROLOGY

March 4-5, 2016
Cedars-Sinai Medical
Center
Los Angeles, CA

THE UROLOGIC MANAGEMENT OF THE AGING PATIENT

April 16, 2016
Cedars-Sinai Medical
Center
Los Angeles, CA

9TH ANNUAL CONFERENCE ON OFFICE ORTHOPAEDICS

May 14, 2016
Cedars-Sinai Medical
Center
Los Angeles, CA

23rd International Symposium on Pancreatic & Biliary Endoscopy

Thursday, January 28 – Sunday, January 31, 2016
Harvey Morse Auditorium
Los Angeles, CA

27.0 AMA PRA Category 1 Credits™

[Register Now!](#)

The Cedars-Sinai 23rd International Symposium on Pancreatic and Biliary Endoscopy teaching conference will be held in cooperation with nine major endoscopy centers in North America, Europe, Asia and Australia. This unique course offers an intensive and comprehensive review of pancreatic and biliary endoscopy for gastroenterologists, gastroenterology fellows and gastroenterology nurses. Symposium planners invite expert faculty to give state-of-the-art lectures and perform ERCP and EUS procedures to demonstrate technique and technology for the benefit of participants watching the live feed in the Cedars-Sinai auditorium.

15th Annual Symposium on Current Concepts in Spinal Disorders

Thursday, February 4 – Saturday, February 6, 2016
Caesars Palace
Las Vegas, NV

13.5 AMA PRA Category 1 Credits™

[Register Now!](#)

The 15th Annual Symposium on Current Concepts in Spinal Disorders will focus on current treatment methodology, new and emerging technologies and controversies in spine care management. The faculty will be comprised of internationally recognized experts who will present lectures focused on innovations in spine surgeries, spine sciences including biologics and stem cells, minimally invasive surgeries, motion preservation, complications and controversies, and deformities. Participants will have several opportunities to hold personal interactions with many of our countries leading spine professionals. All attendees are encouraged to join faculty for discussions and debates regarding all topics.

2nd Annual Cedars-Sinai Update in Obstetrics & Gynecology Conference

Friday, February 19, 2016
Harvey Morse Auditorium
Los Angeles, CA

8.5 AMA PRA Category 1 Credits™

[Register Now!](#)

This annual update in OB/GYN is intended to review topics that are timely and relevant to general and subspecialty OB/GYN providers. A multidisciplinary and inclusive approach will be used to address the latest controversies in the specialty relevant to each topic.

Cedars-Sinai Hypertension Center 2016 Clinical Highlights Symposium

Friday, February 26, 2016
Harvey Morse Auditorium
Los Angeles, CA

6.25 AMA PRA Category 1 Credits™

[Register Now!](#)

Despite significant advances in research, hypertension remains a leading cause of death worldwide. The Cedars-Sinai Hypertension Center 2016 Clinical Highlights Symposium, will provide participants with a comprehensive review of the latest diagnostic and therapeutic approaches to this complex and multifaceted disease. Course content will explore blood pressure monitoring and resistance hypertension, general pharmacotherapy, primary aldosteronism, hypertension in chronic kidney disease, hypertensive heart disease, renovascular hypertension and other relevant topics such as lifestyle modifications. The course format will consist of case-based lectures reviewing the latest evidence, recommendations and scientific principles and will provide clinicians will effective strategies to incorporate into daily medical practice

The James R. Klinenberg, MD Symposium on Rheumatic Diseases: Hot Topics in Rheumatology

Friday, March 4, 2016
The Westin Pasadena
Pasadena, CA

6.5 AMA PRA Category 1 Credits™

[Register Now!](#)

A partnership between primary care physicians and rheumatologists is critical to identify situations that require immediate as well as long term management. This one-day symposium is designed to provide primary care physicians or those that provide primary care to their patients with up-to-date information on how to recognize, diagnose, treat, and follow common rheumatologic conditions.
