May

10th Annual Conference on Office Orthopaedics: The Essentials of Non-Operative Musculoskeletal Care

May 6, 2017

Harvey Morse Conference Center, Los Angeles, CA, 90048

8.0 AMA PRA Category 1 Credits™

Disorders of the musculoskeletal system are the primary reason that individuals seek medical attention in the United States; therefore a fundamental knowledge of musculoskeletal disorders is necessary for practicing primary care provider. The field of orthopaedics, however, is rapidly advancing which presents a challenge for primary care providers to keep pace with advancements. The goal of this program is to provide primary care physicians with an overview of some of the most common disorders of the musculoskeletal system they frequently encounter in their practice, and to offer them an opportunity to sharpen their skills in recommending surgical techniques or non-surgical treatment plans that will restore function and range of motion to their patients.

11th Annual Women and Ischemic Heart Disease Symposium

May 12, 2017

Harvey Morse Conference Center, Los Angeles, CA, 90048

7.0 AMA PRA Category 1 Credits™

This in depth educational symposium will explore gender specific issues in prevalence, risk factors, screening modalities, and medical management strategies, including antiatherosclerotic preventive management, symptom management, hypertension, cholesterol, hormone therapy, STEMI, resorbable stents, heart failure, statin intolerance, and coronary microvascular dysfunction. The purpose of this conference is to close the knowledge gap of physicians and allied health care professionals regarding sex-specific differences in cardiovascular disease, the impact these differences have on treatment options, and to highlight the importance of identifying women at risk for cardiovascular disease by utilizing the most

current evidence-based treatment strategies for improved patient outcomes.

June

Pediatrics State of The Art Conference 2017

June 3, 2017

Harvey Morse Conference Center, Los Angeles, CA, 90048

6.0 AMA PRA Category 1 Credits™

This symposium is designed to provide general pediatricians, family practice and internal medicine clinicians with comprehensive information on recent advances in pediatric care, including state-of-the-art diagnoses, potential solutions for problems encountered in daily practice, and clinical recommendations that will enhance skills in the delivery of optimal care for pediatric patients. This year, the program will feature practical and relevant content that addresses educational needs across four broad areas - pediatric medical care, pediatric surgical care, pediatric inpatient care, and relevant "hot topics" of interest. A multidisciplinary faculty of experts in their respective fields will discuss innovative approaches to the delivery of pediatric healthcare with a focus on team-based care that encourages pediatricians, pediatric medical subspecialists and surgical specialists to function efficiently as part of the patient- and family-centered care model.

Success With Failure: An Advanced Heart Disease Symposium

June 9, 2017

Torrance Marriott Redondo Beach, Torrance, California 90503

7.0 AMA PRA Category 1 Credits™

This one-day course will provide a concise review of clinical knowledge and essential professional skills to facilitate the surgical and medical management of patients with advanced heart failure who are being assessed for and who have received durable mechanical circulatory support, heart transplant or other interventional procedure. The course consists of focused presentations covering a broad array of topics for both inpatient and outpatient management with an emphasis on a practical approach to patient care, implementing best practices and clinical problem-solving.

Urologic Cancer Update

June 10, 2017

Harvey Morse Conference Center, Los Angeles, CA, 90048

4.0 AMA PRA Category 1 Credits™

The Urologic Cancer Update conference will educate community-based clinicians on best practices for multidisciplinary management of urologic cancers. The course directors for this CME activity designed this conference to provide clinicians with the latest information regarding prostate cancer, bladder cancer and kidney cancers. The prostate cancer session will address screening strategies, discuss cancer prevention with nutrition and exercise, and review approaches to minimizing treatment morbidity. Also covered will be proton, HIFU and other ablative therapies and general medical care for metastatic prostate cancer patients. The program will also cover the management of postoperative complications with a focus on urinary complications and sexual function. The final "What's New?" session will provide updates in bladder and kidney cancer. An extended question and answer session during lunch will provide additional time for participants to interact with faculty to get further clarification of key points.
